N&WICS - TA875 - Semaglutide - Managing overweight and obesity

Before providing patient identifiable data on this form, please confirm that the patient (or in the case of a minor or vulnerable adult with the parent/legal guardian/carer) has given appropriate explicit consent for sensitive personal information on this form to be passed to the CCG and/or CSU for processing this funding request and validating subsequent invoices. Consent given: ☐

If there is more than one NICE-approved treatment available, a discussion between the responsible clinician and the patient has taken place about the advantages and disadvantages of the treatments available. This has taken into consideration therapeutic need and whether or not the patient is likely to adhere to treatment. The most appropriate, least expensive, will be chosen (taking into account administration costs, dosage and price per dose) unless an order of preference is stated in the TAs. ☐

By completing this form, you confirm that you intend to use the requested medicinal product described below as agreed in the local commissioning statement. Any requests which fall outside of this use will require an individual funding request (IFR).

For support regarding IFRs, please contact: nwcb.icd@nhs.net

For support regarding the criteria listed below, please contact: nwcb.nontariff@nhs.net

Please indicate whether patient meets the following NICE criteria:	Please tick
1. Semaglutide is recommended as an option for weight management, including weight loss and weight maintenance, alongside a reduced-calorie diet and increased physical activity in adults, only if: <ul style="list-style-type: none"> • it is used for a maximum of 2 years, and within a specialist weight management service providing multidisciplinary management of overweight or obesity (including but not limited to tiers 3 and 4), and • they have at least 1 weight-related comorbidity and: • a body mass index (BMI) of at least 35.0 kg/m², or • a BMI of 30.0 kg/m² to 34.9 kg/m² and meet the criteria for referral to specialist weight management services in NICE's guideline on obesity: identification, assessment and management. Use lower BMI thresholds (usually reduced by 2.5 kg/m²) for people from South Asian, Chinese, other Asian, Middle Eastern, Black African or African-Caribbean family backgrounds. 	<input type="checkbox"/> Yes <input type="checkbox"/> No
2. Consider stopping semaglutide if less than 5% of the initial weight has been lost after 6 months of treatment.	<input type="checkbox"/> Yes <input type="checkbox"/> No
3. As per NICE guidance, treatment should normally be started with the least expensive drug (considering the dose required, price per dose and any additional administration costs). Please confirm that the choice of drug is considered the most cost-effective treatment for this individual patient, noting that alternative treatment options recommended by NICE may be lower in cost, including the use of biosimilar medications if applicable. Where an alternative lower cost treatment is available and has not been tried by the patient, please confirm that the clinical rationale for prescribing has been included in the patients' medical record for the purpose of auditing.	<input type="checkbox"/> Yes <input type="checkbox"/> No
4. The product is being used as described by local commissioning position.	<input type="checkbox"/> Yes <input type="checkbox"/> No

I confirm that the patient meets the criteria for treatment
