### N&WICS - TA718 - Ixekizumab - Axial spondyloarthritis

Before providing patient identifiable data on this form, please confirm that the patient (or in the case of a minor or vulnerable adult with the parent/legal guardian/carer) has given appropriate explicit consent for sensitive personal information on this form to be passed to the CCG and/or CSU for processing this funding request and validating subsequent invoices. Consent given: ☐

If there is more than one NICE-approved treatment available, a discussion between the responsible clinician and the patient has taken place about the advantages and disadvantages of the treatments available. This has taken into consideration therapeutic need and whether or not the patient is likely to adhere to treatment. The most appropriate, least expensive, will be chosen (taking into account administration costs, dosage and price per dose) unless an order of preference is stated in the TAs. ☐

By completing this form, you confirm that you intend to use the requested medicinal product described below as agreed in the local commissioning statement. Any requests which fall outside of this use will require an individual funding request (IFR).

For support regarding IFRs, please contact: [nwicb.icd@nhs.net](mailto:nwicb.icd@nhs.net)

For support regarding the criteria listed below, please contact: [nwicb.nontariff@nhs.net](mailto:nwicb.nontariff@nhs.net)

Please indicate whether patient meets the following NICE criteria:	Please tick
1. Ixekizumab is recommended as an option for treating active ankylosing spondylitis that is not controlled well enough with conventional therapy, or active non-radiographic axial spondyloarthritis with objective signs of inflammation (shown by elevated C-reactive protein or MRI) that is not controlled well enough with non-steroidal anti-inflammatory drugs (NSAIDs), in adults. It is recommended only if: <ul style="list-style-type: none"> <li>tumour necrosis factor (TNF)-alpha inhibitors are not suitable or do not control the condition well enough, and</li> <li>the company provides ixekizumab according to the commercial arrangement.</li> </ul>	<input type="checkbox"/> Yes <input type="checkbox"/> No
2. Assess response to ixekizumab after 16 to 20 weeks of treatment. Continue treatment only if there is clear evidence of response, defined as: <ul style="list-style-type: none"> <li>a reduction in the Bath Ankylosing Spondylitis Disease Activity Index (BASDAI) score to 50% of the pre-treatment value or by 2 or more units and</li> <li>a reduction in the spinal pain visual analogue scale (VAS) by 2 cm or more.</li> </ul>	<input type="checkbox"/> Yes <input type="checkbox"/> No
3. Take into account any communication difficulties, or physical, psychological, sensory or learning disabilities that could affect responses to the BASDAI and spinal pain VAS questionnaires, and make any appropriate adjustments.	<input type="checkbox"/> Yes <input type="checkbox"/> No
4. As per NICE guidance, treatment should normally be started with the least expensive drug (considering the dose required, price per dose and any additional administration costs).  Please confirm that the choice of drug is considered the most cost-effective treatment for this individual patient, noting that alternative treatment options recommended by NICE may be lower in cost, including the use of biosimilar medications if applicable.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Where an alternative lower cost treatment is available and has not been tried by the patient, please confirm	

that the clinical rationale for prescribing has been included in the patients' medical record for the purpose of auditing.		
5. The product is being used as described by local commissioning position.		<input type="checkbox"/> Yes <input type="checkbox"/> No
