N&WICS - TA734 - Secukinumab - Moderate to severe plaque psoriasis in children and young people

Before providing patient identifiable data on this form, please confirm that the patient (or in the case of a minor or vulnerable adult with the parent/legal guardian/carer) has given appropriate explicit consent for sensitive personal information on this form to be passed to the CCG and/or CSU for processing this funding request and validating subsequent invoices. Consent given: ☐

If there is more than one NICE-approved treatment available, a discussion between the responsible clinician and the patient has taken place about the advantages and disadvantages of the treatments available. This has taken into consideration therapeutic need and whether or not the patient is likely to adhere to treatment. The most appropriate, least expensive, will be chosen (taking into account administration costs, dosage and price per dose) unless an order of preference is stated in the TAs. ☐

By completing this form, you confirm that you intend to use the requested medicinal product described below as agreed in the local commissioning statement. Any requests which fall outside of this use will require an individual funding request (IFR).

For support regarding IFRs, please contact: norfolkicd@nhs.net

For support regarding the criteria listed below, please contact: norfolknontariff@nhs.net

| Please indicate whether patient meets the following NICE criteria: | Please tick |
|---|--|
| 1. Secukinumab is recommended as an option for treating plaque psoriasis in children and young people aged 6 to 17 years, only if: <ul style="list-style-type: none"> the disease is severe, as defined by a total Psoriasis Area and Severity Index (PASI) of 10 or more and the disease has not responded to other systemic treatments, including ciclosporin, methotrexate and phototherapy, or these options are contraindicated or not tolerated and the company provides the drug according to the commercial arrangement. | <input type="checkbox"/> Yes <input type="checkbox"/> No |
| 2. Stop secukinumab treatment at 12 weeks if the psoriasis has not responded adequately. An adequate response is defined as a 75% reduction in the PASI score (PASI 75) from when treatment started. | <input type="checkbox"/> Yes <input type="checkbox"/> No |
| 3. Choose the least expensive treatment if patients (or their parents or carers) and their clinicians consider secukinumab to be one of a range of suitable treatments. Take into account availability of biosimilar products, administration costs, dosage, price per dose and commercial arrangements. | <input type="checkbox"/> Yes <input type="checkbox"/> No |
| 4. Take into account how skin colour could affect the PASI score and make any appropriate clinical adjustments. | <input type="checkbox"/> Yes <input type="checkbox"/> No |
| 5. As per NICE guidance, treatment should normally be started with the least expensive drug (considering the dose required, price per dose and any additional administration costs). Please confirm that the choice of drug is considered the most cost-effective treatment for this individual patient, noting that alternative treatment options recommended by NICE may be lower in cost, including the use of biosimilar medications if applicable. Where an alternative lower cost treatment is available and has not been tried by the patient, please confirm that the clinical rationale for prescribing has been included in the patients' medical record for the purpose of auditing. | <input type="checkbox"/> Yes <input type="checkbox"/> No |

| | | |
|--|---------------------------------------|--|
| 6. The product is being used as described by local commissioning position. | | <input type="checkbox"/> Yes <input type="checkbox"/> No |
