N&WICS - TA616 - Cladribine - Relapsing-remitting multiple sclerosis					
Before providing patient identifiable of parent/legal guardian/carer) has give CSU for processing this funding requirements.	en appropriate explicit con	nsent for sensitive personal infor	mation on this form		
If there is more than one NICE-approved treatment available, a discussion between the responsible clinician and the patient has taken place about the advantages and disadvantages of the treatments available. This has taken into consideration therapeutic need and whether or not the patient is likely to adhere to treatment. The most appropriate, least expensive, will be chosen (taking into account administration costs, dosage and price per dose) unless an order of preference is stated in the TAs.
